

Wildtouch

SPECIALISING IN SOUVENIRS FOR ATTRACTIONS

JMS — Jewellery Management System

USER MANUAL

For Admins, Managers and Viewers
Sterling-K Ltd · wildtouch.co.uk

★ Roles at a Glance

Admin

Full control of the system.

- Everything Managers can do
- Delete records everywhere (orders, invoices, products, clients...)
- Manage users & roles, change password
- See the History audit trail

Manager

Runs the day-to-day work.

- Create & edit orders, clients, products, planograms, designs, River orders
- Generate invoices, partials & packing lists
- Manage whiteboard and tasks (including deleting tasks)
- Cannot delete core records or manage users

Viewer

Read-only access.

- Browse every page and search all data
- Download PDFs (invoices, packing lists, planograms)
- Any attempt to create, edit or delete shows a “view-only access” message
- Contact an Admin if you need more access

18. Shift Manager

1 Signing In

Every user signs in with a username (or email) and password created by an Admin in Settings. Your role — Admin, Manager or Viewer — decides what you can do once inside.

WHO CAN DO WHAT	ROLES
Sign in and browse all data	ADMINMANAGERVIEWER
Create new user accounts	ADMIN

TO SIGN IN

1. Open the app and enter your username (e.g. admin) or email.
2. Enter your password and press Sign In.
3. You land on the Dashboard. If your details are wrong you'll see an error — contact your Admin if you're locked out.

The sign-in screen

2 Dashboard

The home screen. It shows live business numbers pulled from the database: active orders, active clients, catalogue size, month-to-date revenue, a 7-day revenue chart, the orders pipeline and low-stock alerts.

WHO CAN DO WHAT	ROLES
View the dashboard	ADMIN MANAGER VIEWER
Create New Order (top-right button)	ADMIN MANAGER

Tip: The Stock Alerts card highlights components at or below their threshold — restock these via River or Inventory.

Dashboard with live stats, revenue and pipeline

3 Global Search

The search bar in the top header finds anything: clients, products, orders, invoices and planograms. Results are grouped with a coloured badge per type.

WHO CAN DO WHAT	ROLES
Search everything	ADMIN MANAGER VIEWER

TO SEARCH

1. Click the header search box and start typing (name, code, order number...).
2. Use the arrow keys to move through results and Enter to open one, or just click it.
3. Products open the Products page pre-filtered; everything else opens its own page.

Typing a client name shows their record, orders and invoices

4 Clients

The customer database. Each client holds contacts, addresses, invoicing settings (VAT rate, PO requirement), product preferences, brand card & barcode images — and Pricing: this client's £ price for each product category, which drives every invoice.

WHO CAN DO WHAT	ROLES
View clients and profiles	ADMIN MANAGER VIEWER
Add / edit clients (incl. pricing & VAT)	ADMIN MANAGER
Delete a client	ADMIN

TO SET A CLIENT'S CATEGORY PRICES

1. Open the client, press Edit, and scroll to the Pricing section.
2. Search a product group (groups are created on the Products page), type the £ price, press Add.
3. Repeat per category, then Save. Invoices for this client now bill each planogram product at its category's price.

TO SET THE VAT RATE

1. Edit the client → Invoicing → VAT rate (%). New invoices apply this rate automatically.

Tip: Click the brand card or barcode image on a profile to view it full-screen.

Component stock list

6 Products & Groups

The sellable catalogue. A product has a name, optional code, a photo, a Group (its category — e.g. Magnets, Large Keyrings) and a bill of materials: which inventory components it is made from. The Group matters: invoices are priced per group using each client's category prices.

WHO CAN DO WHAT	ROLES
View the catalogue	ADMIN MANAGER VIEWER
Create / edit products and groups	ADMIN MANAGER
Delete a product	ADMIN

TO CREATE A PRODUCT

1. Products → Create a Product.
2. Name it, optionally add a code and upload a photo.
3. Pick its Group (type to search; typing a new name creates the group on save).
4. Search inventory components and add each with its per-unit quantity, then Create.

TO ADD A GROUP WITHOUT A PRODUCT

1. Products → Add Group.
2. Type the group name and press Add — it is instantly available in client Pricing.
3. Deleting a group from the list asks for confirmation first.

The screenshot displays the Wildtouch application interface. On the left is a dark sidebar with a navigation menu. The main content area is titled 'Products' and shows a list of products with columns for #, PRODUCT, GROUP, CODE, COMPONENTS, and ACTIONS. The products listed include '10 Downing Street', 'AB Seahorse', 'AB Seahorse (2)', 'AB Starfish', 'AB Starfish', 'AB Turtle', and 'Anchor'. The interface also includes a search bar at the top, a sidebar with various modules like Dashboard, Clients, Inventory, and Planogram, and a bottom bar with a collapse button.

#	PRODUCT	GROUP	CODE	COMPONENTS	ACTIONS
1	10 Downing Street	—	—	none	
2	10 Downing Street	—	—	none	
3	AB Seahorse	—	—	none	
4	AB Seahorse (2)	—	—	none	
5	AB Starfish	—	—	none	
6	AB Starfish	—	—	none	
7	AB Turtle	—	—	none	
8	Anchor	—	—	none	
9	Anchor	—	—	none	

Products list with Group column

The Add Group dialog — create and manage categories

7 Planogram

Stand layouts. Built-in planograms cover the standard Wildtouch stands; the builder lets you create custom ones where every grid cell is its own product with a photo and quantity. Each side can also carry a Charms list shown at the bottom of the side and on prints.

WHO CAN DO WHAT	ROLES
View planograms & print PDFs	ADMIN MANAGER VIEWER
Build, edit and duplicate planograms	ADMIN MANAGER
Delete a planogram	ADMIN

TO BUILD A PLANOGRAM

1. Planogram → Add New Planogram.
2. Name it, choose sides / rows / columns, then Generate Grid.
3. In each cell, search a product — its photo appears — and set the quantity.
4. Fill the Charms field per side if needed, then Save Planogram.

TO EDIT OR DUPLICATE

1. Open a custom planogram → Edit changes anything (including charms); Duplicate makes a “(Copy)” to start from.

Built-in and custom planograms

The builder setup — name and grid size

8 Digital Whiteboard

A shared board for quick order/task tracking — the digital version of the office whiteboard. All roles can see it; Admins and Managers can add, update and remove entries.

WHO CAN DO WHAT	ROLES
View the board	ADMIN MANAGER VIEWER
Add / edit / delete entries	ADMIN MANAGER

Tasks for a selected date, sorted by priority

10 Orders

The heart of the system. Orders are created through a wizard (planogram → stock check → client → review) and confirming one generates its invoice automatically, billed by product category at the client's prices. The list shows a date filter, per-row Packing List and Partial invoice buttons, and an Invoice Summary panel at the bottom (total invoiced, partial invoiced, outstanding — date-aware).

WHO CAN DO WHAT	ROLES
View orders, print order PDFs & packing lists	ADMIN MANAGER VIEWER
Create orders & partial invoices	ADMIN MANAGER
Delete an order	ADMIN

TO CREATE AN ORDER

1. Orders → Create New Order.
2. Pick a planogram and set quantities — the stock step checks component availability.
3. Choose the client (addresses pre-fill) — Review shows the invoice preview billed by category.
4. Confirm Order — the order and its invoice are created together.

TO GENERATE A PACKING LIST

1. Press Packing List on any order row (or inside the order).
2. Choose With or Without Proof of Delivery — the slip opens on screen with a Download PDF button.

TO BILL IN INSTALMENTS (PARTIAL INVOICES)

1. Press Partial on the order row (or New Partial Invoice inside the order).
2. Enter the amount (quick 25% / 50% / Remaining buttons) — the remaining balance is tracked per order.

Packing slip (Proof of Delivery optional)

11 Design Tracker

The pipeline for new component designs. Each design moves through Stages: New Design Request → Research → Feedback → New Design Template. Reaching the final stage marks it finished and sends it to River as an orderable component. Moving a design backwards requires a note, and every stage change is recorded in the History column.

WHO CAN DO WHAT	ROLES
View designs	ADMIN MANAGER VIEWER
Add / edit designs & change stages	ADMIN MANAGER
Delete a design	ADMIN

TO TRACK A DESIGN

1. Add Design — the row opens like a spreadsheet: image, name, client, category, notes, code sheet, brochure and Ordered columns.
2. Move the Stage dropdown forward as work progresses.
3. Choosing “New Design Template → River” finishes it — River gets a New Design notification.
4. Moving back a stage asks for a mandatory reason, saved to the row's History.

Live designs with Stage and History columns

12 River

Purchase orders to the vendor River, who makes new components. Rows edit inline like a spreadsheet: order number, component (searchable from completed designs), quantities, £/¥ values, priority, shipment method and a dated notes log. Receiving stock — fully or partially — adds it straight into Inventory.

WHO CAN DO WHAT	ROLES
View River orders	ADMIN MANAGER VIEWER
Add / edit orders, receive stock	ADMIN MANAGER
Delete a River order	ADMIN

TO ORDER A NEW DESIGN

1. The New Design button shows finished designs waiting to be ordered — press Order it to pre-fill a row.
2. Fill quantity, values, priority and shipment, then Save.

TO RECEIVE STOCK

1. Use Complete (everything) or Partial (a quantity) on the row.
2. The received amount is added to Inventory automatically — first receipt creates the component, later ones top it up.

Tip: Notes default to today's date — just type and press Add; pick another date only when back-dating.

15 Invoicing

Every confirmed order produces an invoice in the official Wildtouch / Sterling-K layout — on screen and as an identical PDF. Line items are the product categories (not individual products), priced from the client's category prices, with the client's VAT applied. Partial invoices show the amount due now, what was previously invoiced, and the balance remaining.

WHO CAN DO WHAT	ROLES
View invoices & download PDFs	ADMIN MANAGER VIEWER
Generate invoices (by confirming orders) & partials	ADMIN MANAGER
Delete an invoice (also deletes its order)	ADMIN

ON AN INVOICE PAGE YOU CAN

1. Download PDF — the printed invoice, identical to the screen.
2. Download the Planogram PDF from the side panel — products with photos and quantities, no pricing.
3. See the planogram summary beside the invoice (screen only, never printed).

Tip: Deleting an invoice is admin-only and removes the linked order and all its sibling invoices — the confirmation dialog spells this out.

17 Settings & User Management

Your account details, plus (for Admins) password change and user management. Admins create accounts with a username, email, password and role — Viewer, Manager or Admin — and can delete any account except their own.

WHO CAN DO WHAT	ROLES
View own account	ADMIN MANAGER VIEWER
Create / delete users, choose roles	ADMIN
Change password (code sent to the master email)	ADMIN

TO ADD A USER

1. Settings → Users → fill username, email, password (minimum 8 characters).
2. Pick the role: Viewer (read-only), Manager (day-to-day work) or Admin (everything).
3. Press Create — share the credentials with the person privately.

The screenshot shows the Wildtouch application interface. The left sidebar contains navigation links: Overview, Dashboard, Clients, Inventory, Products, Planogram, Digital Whiteboard, Task Manager, Orders, Design Tracker, River, Production, Agents, Branding Cards, and Shift Manager. The main content area is titled 'Settings' and includes sections for 'Your Account', 'Change Password', and 'Users'. The 'Your Account' section shows the user 'Admin' with email 'jmsuk2026@gmail.com' and role 'ADMIN'. The 'Change Password' section has a button to 'Email me a verification code'. The 'Users' section displays a table of existing users.

USERNAME	EMAIL	PASSWORD	ROLE
		min 8 chars	Viewer Manager Admin
+ Create			

USER	EMAIL	ROLE	ACTIONS
Admin	jmsuk2026@gmail.com	ADMIN	
Manager1	manager1@wildtouch.local	MANAGER	

Settings — account, password and users

18 Shift Manager

The staff shift rota, pinned at the bottom of the sidebar. Employee names from here also feed the Task Manager's employee search.
